INSTRUCTIONS ON REVERSE

INSTRUCTIONS FOR COMPLETING THE BRIEF JAIL MENTAL HEALTH SCREEN

GENERAL INFORMATION:

This Brief Jail Mental Health Screen (BJMHS) was developed by Policy Research Associates, Inc., with a grant from the National Institute of Justice. The BJMHS is an efficient mental health screen that will aid in the early identification of severe mental illnesses and other acute psychiatric problems during the intake process.

This screen should be administered by Correctional Officers during the jail’s intake/booking process.

INSTRUCTIONS FOR SECTION 1:

NAME: Enter detainees name — first, middle initial, and last
DETAINEE#: Enter detainee number.
DATE: Enter today’s month, day, and year.
TIME: Enter the current time and circle AM or PM.

INSTRUCTIONS FOR SECTION 2:

ITEMS 1-6:

Place a check mark in the appropriate column (for “NO” or “YES” response).

If the detainee REFUSES to answer the question or says that he/she DOES NOT KNOW the answer to the question, do not check “NO” or “YES.” Instead, in the General Comments section, indicate REFUSED or DON’T KNOW and include information explaining why the detainee did not answer the question.

ITEMS 7-8:

ITEM 7: This refers to any prescribed medication for any emotional or mental health problems.

ITEM 8: Include any stay of one night or longer. Do NOT include contact with an Emergency Room if it did not lead to an admission to the hospital

If the detainee REFUSES to answer the question or says that he/she DOES NOT KNOW the answer to the question, do not check “NO” or “YES.” Instead, in the General Comments section, indicate REFUSED or DON’T KNOW and include information explaining why the detainee did not answer the question.

General Comments Column:

As indicated above, if the detainee REFUSES to answer the question or says that he/she DOES NOT KNOW the answer to the question, do not check “NO” or “YES.” Instead, in the General Comments section, indicate REFUSED or DON’T KNOW and include information explaining why the detainee did not answer the question.

All “YES” responses require a note in the General Comments section to document:
(1) Information about the detainee that the officer feels relevant and important
(2) Information specifically requested in question

If at any point during administration of the BJMHS the detainee experiences distress, he/she should follow the jails procedure for referral services.

INSTRUCTIONS FOR SECTION 3:

OFFICER’S COMMENTS: Check any one or more of the four problems listed if applicable to this screening. If any other problem(s) occurred, please check OTHER, and note what it was.

REFERRAL INSTRUCTIONS:

Any detainee answering YES to Item 7 or YES to Item 8 or YES to at least two of Items 1-6 should be referred for further mental health evaluation. If there is any other information or reason why the officer feels it is necessary for the detainee to have a mental health evaluation, the detainee should be referred. Please indicate whether or not the detainee was referred.

**TOTAL # YES:** ______  

**General Comments:**

Refer for further Mental Health Evaluation if the Detainee answered Yes to 5 or more items OR If you are concerned for any other reason

- **URGENT Referral** on ___/___/___ to ________________________
- **ROUTINE Referral** on ___/___/___ to ________________________
- **Not Referred**

**Person Completing Screen:** __________________________
INSTRUCTIONS FOR COMPLETING THE CMHS-W

General Information:
The CMHS is a tool designed to assist in the early detection of psychiatric illness during the jail intake process. The Research Team under the direction of Drs. Julian D. Ford and Robert L. Trestman at the University of Connecticut Health Center developed this Correctional Mental Health Screen for Women (CMHS-W), with a grant funded by the National Institute of Justice.

Instructions for administration of the CMHS-W:
Correctional Officers may administer this mental health screen during intake.

Name: Detainee’s name- Last, first and middle initial
Detainee# : Detainee’s facility identification number
Date: Today’s month, date, year
Time: Current time (24hr or AM/PM)

Questions #1-8 may be administered as best suits the facility’s policies and procedures and the reading level, language abilities, and motivation of the detainee who is completing the screen. The method chosen should be used consistently. Two recommended methods:
• Staff reads the questions out loud and fills in the detainee’s answers to the questions on the form
• Staff reads the questions out loud, while the detainee reads them on a separate sheet and fills in her answers

Each question should be carefully read, and a check mark placed in the appropriate column (for “NO” or “YES” response).

The staff person should add a note in the Comments Section to document any information that is relevant and significant for any question that the detainee has answered “YES.”

If the detainee declines to answer a question or says she does not know the answer to a question, do NOT check “YES” or “NO.” Instead, record DECLINED or DON’T KNOW in the Comments box.

Total # YES: total number of YES responses

General Comments: Staff may include information here to describe overall concerns about the responses (for example: intoxicated, impaired, or uncooperative)

Referral Instructions:
Urgent Referral: A referral for urgent mental health evaluation may be made by the staff person if there is any behavioral or other evidence that a detainee is unable to cope emotionally or mentally or is a suicide risk.

Routine Referral: A detainee answering “YES” to 5 or more items should be referred for routine mental health evaluation. A referral also may be made if the staff person has any concerns about the detainee’s mental state or ability to cope emotionally or behaviorally.

** If at any point during administration of the CMHS-W the detainee experiences more than mild and temporary emotional distress (such as severe anxiety, grief, anger or disorientation) she should be referred for immediate mental health evaluation.

Referral: Check the appropriate box for whether a detainee was referred. If referred, check URGENT or ROUTINE, enter the date of the referral and the mental health staff person or mental health clinic to whom the referral was given.

Person completing screen: Enter the staff member’s name
